

Setting the Standard for Automation™

International Society of Automation

ISA provides its members with unparalleled access to technical information, professional development resources, and opportunities to network with other automation professionals in person and online. In addition, membership supports a nonprofit organization dedicated to advancement of the state of the art and recognition of the automation profession.

These are among the many benefits ISA provides its membership

Free online viewing of ISA's automation standards: ISA has published more than 150 standards, recommended practices, and technical reports through the dedicated efforts of a network of industry experts

Free *InTech* magazine and *Automation Weekly* e-newsletter

Information exchange and networking: 154 local sections for professional members and 115 for student members provide in-person meetings and events; instant access to technical, open-forum discussions through hundreds of specialized email discussion groups; and Technical Division membership, which connects members online within 19 industries, sciences, and technologies around the world and hosts numerous annual technical conferences

Conferences & Exhibits

Mission

ISA's mission is to become the standard for automation by certifying industry professionals, providing education and training, publishing books and technical articles, hosting conferences and exhibitions for automation professionals, and developing standards for industry.

- **Standards:** ISA is recognized globally for the development of more than 150 consensus industry standards in key areas such as security, safety, enterprise integration, wireless communications, and batch control; and in traditional instrumentation, measurement, and control. ISA standards are the basis for many important International Electrotechnical Commission (IEC) and American National Standards Institute (ANSI) standards
- **Certification:** ISA's Certified Automation Professional® (CAP®), Certified Control Systems Technician® (CCST®), and the ISA84 Certificate programs recognize automation professionals for the skill and competency they have achieved
- **Education and Training:** ISA is recognized worldwide as the authority in non-biased, vendor-neutral education and training programs for automation professionals
- **Publishing:** ISA is the authoritative publisher of books, magazines, and technical journals covering applications, technology, and industry for the automation professional
- **Conferences and Exhibits:** ISA hosts annual events worldwide that provide quality education, the latest automation developments, and real-world applications, with presentations delivered by experts, peers, and industry leaders

Membership

Joining ISA is easy, and the career-enhancing benefits begin immediately.

- Free technical library: unlimited downloads of over 2,500 technical papers published at ISA conferences and symposia
- Free access to over 40 online, pre-recorded web seminars
- Free online access to *ISA Transactions*, which covers the latest advances in the science and engineering of measurement and automation
- Professional development opportunities, including a free Leadership Development Certificate Program and volunteer opportunities that bring professional recognition and growth
- Free Mentoring Program to enhance workforce development and careers
- Many more career and personal benefits

Schedule customized training, learn more about professional certifications, or connect with other ISA services by sending an email to info@isa.org.
