

TECH TALK

Attracting the Digital Natives to Industry

Rochestown Park Hotel, Cork
Wednesday, April 10, 2019, 19:30pm

Moran's Red Cow Hotel, Dublin
Thursday, April 11, 2019, 19:30pm

The average age of employees within industry, specifically life science, is increasing. In order to "survive" and be profitable, it is necessary for us within industry to adapt to the upcoming generation; both in terms of how we work, but also what we work with. Using the right technology and having a friendly user-interface to stimulate our coming "Digital Natives" is crucial, but yet only one piece to the puzzle.

The speakers at this Tech Talk aim to provide tools on how to capture on the digitalization trend and attract the new generation of industry employees through technology solutions such as Control Rooms and MOM software.
